

Recurrent streamline: signed excursion versus absolute temporal variation

ANALYTIC EXACT FIELD · DETERMINISTIC NUMERICAL RENDERING · NOT DNS · NOT CLAY

$$\psi = \sin x_1 \sin x_2 = 1/2, \quad g = |W|^2, \quad q = g'$$

Frozen exact family, core 7355c01d. Orbit-time curves are deterministic renderings, not DNS; panel D compares proved and target exponent classes, not constants.
