

Static viscous persistence of the certified periodic Rayleigh cluster

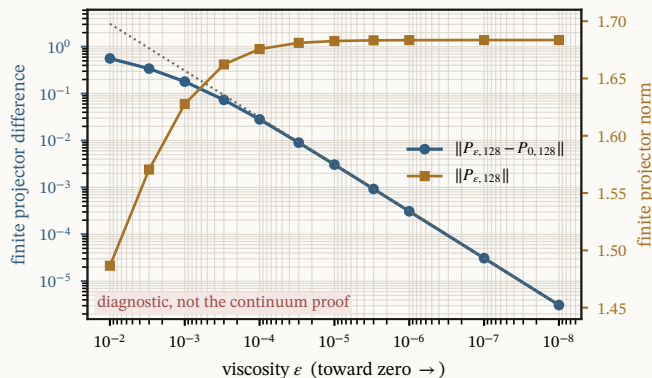

A Exact kinetic-space reduction

B Finite eigenvalue diagnostic as viscosity vanishes

C Finite projector diagnostic in the kinetic norm

D Closed theorem and exact remaining boundary

CLOSED
fixed-cluster theorem

- [x] fixed contour / resolvent
- [x] Riesz norm convergence
- [x] cluster multiplicity
- [x] cluster eigenvalues

OPEN
next proof gates

- [] simplicity / explicit rate
- [] complement dichotomy
- [] fast-time transfer
- [] nonlinear NSE / Clay

General persistence precedent: Shvydkoy-Friedlander (2008)
This release gives a self-contained fixed-row norm proof; no priority claim.
